25X1 5. [REDACTED] Jim Wilson, House Science and  
Aeronautics Committee staff, called stating that Representative Olin Teague  
was going to be on a TV program on Sunday discussing Russian space  
programs. He wished guidance as to what should be avoided in terms of  
classification as a result of briefings he has received from Agency people.  
I told Mr. Wilson that we would be in touch with Mr. Teague. Carl Duckett  
subsequently talked with Teague and said he was able to work this out very  
easily with Teague and he saw no real problem on this.
